8-18-69, 12¹⁰ P.M.

200 ft down river, cleaned out + photographed
 2 very sharp dino prints, (Same as I took in Feb. 1969)
 Located on a level stratum 1 1/2 ft below top ledge
 Sink in 3 inches. Claw marks very distinct
 Measures 17" long, 13" wide.

12³⁰ P.M.

Project Moved ~~east~~ to other end of pasture behind the
 old schoolhouse.
 Air temp. 99. Bright sunny cloudless day,
 hood breeze, comfortable. None of us feel the
 heat in any way.

Pot hole, measures 44" x 55" — oval
 dino + man track in same block, about 1' apart
 Man track had 5 toes, not giant size.
Jim Ryals cut it out (1934).

6 tracks, 5 cleaned out, 6th in a mud bank
 Average stride 5 1/2 ft. Average length - 18-19
 + 10" wide

Project 4. 1³⁰ P.M. - All hungry! - going home.
 Strong breeze from the North. Ideal for picnic.
 Partly cloudy. Parked under walnut tree.

6¹⁰ P.M. (8-18-69) Mon

Making myel replica of bear or skold track
 at State Park. 15" x 9" wide

Dino track next, 30" x 30". Diagonal - 37"
 4 two tracks, deeply indented, 12" deep. 20 gal.
