Dear Dr. Baugh:

On September 12, 1983, an article appeared in the Christian News about your recent discovery of evidence that supports the theory of creation. Indeed, if the reports of your findings are accurate, then this is a significant breakthrough with enormous implications for establishing the origin of mankind.

As a Christian, I am most interested in this topic and in obtaining information that substantiates that our existence can be attributed to our Creator. Therefore, I would appreciate it if you would forward any materials that would apprise me of your work, or, where I might obtain such information.

My prayers and best wishes are with you.

Sincerely,

William E. Dannemeyer
Member of Congress
